

Historic Banning Mills and Screaming Eagle Zip line Canopy Tours and Adventures Informed Consent:

Description of the Eco zip line Canopy tours and Adventure Treks

Zip line canopy tours provide opportunities for adventure recreation and environmental education. Tours consist of zip lines, sky bridges, obstacles, tree platforms and other related adventure activities. The tours are accessible by sky walkways, stairs, towers and or climbing walls. Zip lines are high cable traverses used via safety harnesses and associated hardware while sky bridges are walkways high in the forest canopy consisting of planking supported by steel cables and handrail. Trained guides will accompany all tours and participants will receive instruction and all gear checked by guides before beginning the adventure. Participants will be required to hand brake with leather type gloves and there may be some jarring type impact on some landings. Our grounds are left as natural as possible and are not considered improved. Participants will be required to walk on uneven ground trails at times, climb towers, traverse bridges that give the illusion of instability and stand in close proximity to others on the tree platforms. These type eco tours are not rides and do require participants to be involved in all aspects of the adventure trek.

Possible risks that may be encountered on zip line canopy tours, team building events, aerial adventure parks and climbing/ rappel walls as well as other outdoor type events are: strains, sprains, dislocations, broken bones, blisters, hot spots, soreness, sore muscles, hypothermia, dehydration, scrapes, cuts or gashes, abrasions, collisions, service provider mistakes, heat exhaustion or heat stroke, concussions, heart attacks, sunburn, insect bites or stings, getting hit by a falling object, falls, hair, clothing or jewelry getting caught, contact with harmful plants or animals, neurological damage, head/neck/back injuries, serious injury and death. The Provider does try to anticipate participants medical needs ahead of time via the waiver but this cannot be interpreted that the Provider or staff is competent to deal with these particular medical problems. The Provider does recommend that any incident, resulting in participant injury, minor or major, that said participant should see a MD for evaluation without delay.

I have read and understand the risks listed above.

I understand that the description of these inherent risks is not complete and that other unknown or unanticipated inherent risks may result in injury or death.
